COLORADO SPRINGS GAZETTE.

COLORADO SPRINGS, COLO., TUESDAY, APRIL 24, 1888. PRICE FIVE CENTS.

A DENVER MAN.

Prof. Fletcher, of Denver's Chamber of Commerce, in Man...

He is Interviewed by a Reporter at the Barker House.

His Opinions of Colorado Springs and the Smelter Law.

...turing Prospects, Etc.

...Why we have been paying for freight ... between a Denver and the East ... from Denver to New York ... somewhat far than with Colorado ... Oh yes, and I am a great admirer of ... the most beautiful and most desirable residence city in the west. And I will grow fast ... thought of investing in outlying real estate there sometime soon but neglected to do so, and I was Chaffee ... Chicago, Of course, Colorado Springs ... proper and it may ... delightful residence city and health resort.

"But what is your opinion of its situation and business prospects? Do you appreciate the advantages of the Utes?"

"Oh, yes," responded the president of the Denver chamber of commerce ... lastly, and with a rising inflection. "Yes I think this advantage will in time become first apparent. There are other ways to get into the mountains ... and that by tunneling, we can get easier grades and a shorter route from Denver through the mountains than the Midland ... But Colorado Springs has many natural advantages. It might become an important manufacturing place. A watch factory, for instance, or a furniture factory, or wicker work factory. I understand that remarkably fine reeds for wicker work are growing in Colorado. There are no doubt many semi-invalids in Colorado Springs who would be glad to get work in such factories at low wages, and hundreds of such men and women would come if some such opportunity was offered them to gain a livelihood. A woolen blanket factory could be established on a very moderate capital. There is plenty of wool here suitable for that class of goods, and, in fact, there is abundant raw material in the state to warrant the establishment of many manufacturing industries. And that reminds me. After the outcome of the affair with Holton, your board of trade sent us a communication asking us to endorse their determination not to offer subsidies in the future. We have not yet acted upon it, but I am of the opinion though I speak now not for the chamber of commerce, but for myself, that it won't work. We are in competition with Kansas City, St. Joe and other places throughout the territory east of us, and we propose to bid for all that is desirable that we can get."

Here Mr. Fletcher detailed at some length a plausible and practicable scheme for encouraging the building of factories. It consists of devoting a tract of land to each such enterprise, the extent of the tract to be sufficient not only for the needs of the factory, but also for the building of a suburban settlement, and then deeding certain portions of the tract to the factory projectors, the amount to depend on the number of hands employed, etc. Continuing, Mr. Fletcher said: "I think Colorado Springs could adopt this plan with success. Colorado can and should manufacture more than she does. We are paying immense sums yearly for freight transportation on articles that we could not only make for ourselves, but supply to the immense territory lying all around us."

After a few further remarks on the same subject, the reporter bade Mr. Fletcher good night.

CITY COUNCIL.

Adjourned Meeting of the City Council last Evening.

A City Attorney, City Marshal and a President Elected.

Ordinance Concerning Election Contests Introduced and Passed.

Considerable Business of a Miscellaneous Character Transacted.

An adjourned meeting of the City Council was held last evening, Mayor Stockbridge in the chair. All members were present except Messrs. Barker, Lenny, Stubbs, Call and Merrill. The minutes of the last meeting were read and approved. The Mayor then stated that the council was convened to consider the business remaining unfinished from the last meeting, and the first matter was the election of a City Attorney, City Marshal and President of the Council.

Mr. Pattison was declared elected City Attorney.

The council then balloted for city marshal with the following result:

E. Foster ... 1
E. A. Hodges ... 4
Scattering ... 1

Alderman Lawton was declared elected.

Alderman Skinner moved that when the council adjourn it adjourn until next Monday evening. Carried.

The committee appointed at the previous meeting to determine if the council could decide the Merrill-Stevens election contest, reported that the council had that authority, and offered the following ordinance concerning contested elections:

Be it ordained by the city council of the city of Colorado Springs:

Section 1. The election of any person declared elected mayor, city treasurer or alderman in this city may be contested by any opposing candidate at said election for the same office for any cause that shows that another was the legally elected person, or that shows that the person declared elected to be ineligible to the office. The person instituting the contest may be designated as the contestant and the person whose right is contested may be designated as the contestee.

Sec. 2. Any such candidate who shall desire to contest the validity of any election of mayor, city treasurer, or alderman, or the right of any person so declared duly elected to the office of mayor, city treasurer or alderman in this city, to hold the said office, shall give notice of his intention in writing to the person whose election he desires to contest, by personal service of notice or by leaving the notice at his usual place of residence, within twenty days after the canvass of the election returns, and it shall also be the duty of the contestant, within the aforesaid time, to deliver to and file with the city clerk a petition addressed to the city council and setting forth his intention to contest the said election, together with the points upon which the same will be contested, which petition shall be verified by the oath of the contestant, to the effect that its contents are true, as he verily believes, and the city clerk shall lay said petition before the council at the first regular meeting held after the same shall have been filed.

Sec. 3. The contestee may, if he so desire, within ten days after the service upon him of the said notice, file with the city clerk an answer to said petition, containing counter charges against the contestant, specifying the cause, or causes, why the contestant has not been elected, or that he is ineligible to said office, which answer shall be verified by the oath of the contestee according to his best information and belief. The council may, for good cause shown, extend the time of filing such answer.

Sec. 4. The city council shall, at its next regular meeting, after said answer has been filed, or after the time of the filing thereof has expired, fix an hour and day for an adjourned or special meeting of the council for the purpose of hearing said contest. Said adjourned or special meeting shall be held before the next regular meeting of the council.

Sec. 5. The contestant may appear at said meeting with his attorneys and witnesses, and the contestee may also be attended by his attorneys and witnesses, but the city attorney shall not act as attorney for either contestant or contestee, but shall impartially advise the council in the premises. All witnesses shall be sworn in the matter of the contest by an officer authorized to administer oaths. And if it shall appear from the evidence of said witnesses that a vote, or votes, were illegally cast at the election, or counted in the canvass, which the council shall by a majority vote decide, then the officer shall cause his clerk to bring before them the poll book, tally sheet and ballot box containing the ballots of said ward or precinct in which said ballots were cast, and shall take out the ballots or ballots of the person or persons who have been proven to have voted illegally. The ballots so taken from the ballot box shall be examined and as many of them as bear the name of the contestee shall be deducted from his vote and so many of said ballots as bear the name of the contestant shall be deducted from his vote. And so many of the votes so may be proved to have been improperly counted for the contestant or contestee shall be deducted from the vote received by the improper count, and thereupon the council shall by vote declare the person receiving a majority of the legal votes found to be duly elected. Provided that if it has not been decided by the council that such person is ineligible to said office in which case the council shall declare a vacancy to exist in said office and shall fill such vacancy in the manner as provided by law in case of vacancies in such office.

Sec. 6. The person so found by the council to be duly elected to said office shall not be entitled to be inducted into said office, or shall be permitted to do so and shall then be recognized by the council and its officers as the proper and legal incumbent of said office. Provided that if it shall be found by the council that the contestant and contestee have each the same number of legal votes then the right to said

REPUBLICAN STATE CONVENTION

HEADQUARTERS OF THE REPUBLICAN STATE COMMITTEE,
DENVER, Colo., April 1, 1888.

In accordance with the instructions of the Republican State Central committee, a convention of the republican party of Colorado is hereby called to meet at Pueblo on Tuesday, the 15th day of May, 1888, at 12 o'clock, a. m., to elect six delegates and six alternates to the national republican convention to be held at Chicago, Ill., on the 19th day of June, 1888, to nominate candidates for the republican party for the offices of president and vice president of the United States, and to transact such other business as may properly come before said state convention.

The several counties of the state will be entitled to representation in said convention as follows, to wit:

	Delegates.		Delegates.
Arapahoe	12	Lake	12
Archuleta	4	La Plata	11
Bent	11	Larimer	13
Boulder	13	Las Animas	14
Chaffee	14	Lincoln	14
Clear Creek	14	Mesa	8
Conejos	11	Mineral	8
Custer	10	Ouray	6
Delta	11	Park	11
Dolores	4	Phillips	14
Douglas	11	Pueblo	14
Eagle	9	Rio Grande	9
Elbert	14	Routt	8
El Paso	14	Saguache	8
Fremont	14	San Juan	4
Gilpin	10	Summit	10
Grand	8	Weld	19
Gunnison	12	Washington	12
Hinsdale	4		
Huerfano	10	Total	550

The basis of apportionment is one delegate to every seventy-five votes cast for Hon. Alvin Marsh for attorney general, and one delegate for the fraction of twenty-five or over thereof, for all counties except Weld, Washington and Lorain, for which the vote for Hon. T. M. Robinson for district judge last fall is taken as the basis. Under the apportionment the counties of Weld county are entitled to the March basis, but her committee has voluntarily accepted the Robinson vote as being the equitable basis in view of the fact that at the last state election Lorain and Washington counties were included in Weld. Each county of the state is given three delegates at large.

A full convention of delegates is earnestly desired.

H. A. W. TABOR, Chairman.
I. N. STEVENS, Secretary.

The growth of Fort Worth has been phenomenal, but the explanation of it is not difficult to understand. The men who founded it were broad-spirited public citizens and the people who came afterward seem to have been of the same character. They have all worked unitedly to build up their city and make it a great railroad center. This city did not have a railroad until four years after the Denver & Rio Grande railroad arrived here, and its growth did not really begin until 1880. Its citizens then saw their opportunity and improved it. They built railroads, as well as encouraged those that came. They realized that something besides railroads, however, was necessary to make the city pleasant and prosperous. Two of its streets were paved at an expense of one hundred and ten thousand dollars, while its other streets were graveled and the drives made pleasant. A system of sewerage was put in, costing ninety thousand dollars. A large number of fine school houses were built. Two colleges were given land and money, and are now in a flourishing condition. Besides the school buildings and churches, there is a fine opera house, a club building and a board of trade building. There are stock yards costing two hundred thousand dollars, a refrigerator costing one hundred and ten thousand dollars, a large laundry, three flouring mills, three ice factories and many other manufacturing industries. Yet Fort Worth had less natural resources than we had. The advantage this town had as a health resort alone, if properly improved, should have given us three or four times the population we now have and is worth far more to us than all the manufacturing industries Fort Worth has. There is not a public improvement in this city but what was started years after it should have been, because of the want of public spirit among many of our people. When the first proposition was made to put in water, it was beaten by a vote of the people. The question of sewerage was first brought forward six years ago; but so much opposition was shown that the question was not even submitted to the people. So it has been in regard to other public improvements which were absolutely necessary to the prosperity of this city. High taxes are no excuse whatever for not making such improvements. To wait until we are better able to make them, simply means that we delay the growth of the city for so many years. We now see our opportunity for growth as we have never seen it before. There are a great many health resorts in this country and Europe that have several times our population within half our natural advantages.

"America," the new weekly published in Chicago, gives the following political doctrine that was considered quite sound in Grant's time:

Richard H. Dana, in announcing his political independence by repudiating the nominee of his party, once said: "If a convention nominates a man who rejects a great article of republican faith, no man is bound by that convention." Mr. Dana's courage was proverbial. So was his fidelity to the republican party, which set at nought faithful to itself the high service of his unknown talents and even underrated his life, eloquent defense of fugitive slaves. Therefore, as with many independents now accusations of namby pambyism fell flat. Such honorable service had so thoroughly endeared to him the party whose struggling growth he had fostered, that with a manliness peculiar to him, he repudiated candidates who had fought against its principles at their birth, but who were only too ready in pretending to adopt them when they had prevailed. His position was perfectly correct. By appointing that minister to England, General Grant showed a broader policy than that now manifested toward the mugwumps by some leaders of his party. Men who think for themselves, and fearlessly cast their ballots according to conviction, constitute a balance wheel which preserved the country's integrity. Too many vote blindly for not at all. Great good would result if a larger proportion of citizens would emulate the scholarly, patriotic Bostonian.

JAMES ALLISON.

He Is President of the Commission In Charge of Cincinnati's Exposition.

(Special Correspondence.)

CINCINNATI, April 19.—James Allison, president of the board of commissioners for the forthcoming exposition, was born at Frankford, Pa., in 1823. At 10 years of age he went with his parents to Jefferson county, Ind., where he served as farmer's boy, with such intervals of schooling as were possible. At the age of 17 he went to Cincinnati, where he learned the plumber's trade. Two years later he changed the employment of a plumber for those of a soldier, and enlisted in the Twenty-fourth Indiana volunteers. He served in the war for the Union three years, when he returned to the business house he had left at Cincinnati, where he soon became a foreman, and afterward a partner. Some twelve years ago Mr. Allison severed this connection and entered the plumbing business for himself. His efforts in a quiet way have created quite a revolution.

JAMES ALLISON.

For two years in succession Mr. Allison was elected president of the National Association of Master Plumbers of the United States and a member of the American Health association, a director of the Ohio Mechanic's institute and the Cincinnati house of refuge, in which he takes very great interest. Having served as a member of the board of commissioners of farmers, mechanics and industrial exposition under appointment of the Ohio Mechanic's institute, he was again reappointed, and on the organization of the present board was unanimously elected its president, and in his official position has been untiring in his efforts for the complete success of the centennial exposition of the Ohio valley and central states to be held here this year.

A Base Ball Accident.

CHICAGO, April 23.—A special to the Daily News from Indianapolis says that in the first inning of the Chicago Indianapolis game there this afternoon Paul Hines, of the Indianapolis, was hit on the head with the ball and it is thought his injuries will prove fatal. Clark was pitching for Chicago. Hines was at the bat. Clark pitched a terribly swift ball, which was apparently going wide of the plate, but when nearly opposite the plate it took a sudden curve and struck Hines squarely on the temple. Hines lies as dead, and three doctors are working over him.

INDIANAPOLIS, April 23.—The cut received by Paul Hines from a pitched ball to-day was just above the left eye, extending three or four inches across the forehead. He was taken to the club house and a surgeon dressed the wound. Unless fever sets in he will be all right in a few days.

American Vessels Lost.

LONDON, April 23.—The American ship Continental from New York December 31 for Calcutta, before reported ashore at Palangra Point, has become a total wreck. Her crew was saved. The American steamer San Pablo, Captain Reed, from San Francisco March 21, via Yokohama for Hong Kong, before reported ashore at Turnabout island, is a total loss. Her crew have arrived at Shanghai.

Endorsed Cleveland.

HELENA, Montana, April 23.—The democratic territorial convention elected Hon. Martin Maginnis and Thos. Marshall, delegates to the St. Louis convention, and Messrs. Davidson and Savage alternates. They are uninstructed, but are personally for Cleveland, as the convention endorsed him strongly.

The Emperor's Condition.

BERLIN, April 23.—The emperor's general condition is satisfactory. The discharge from the throat is copious, and the swelling of the glands has decreased.

BERLIN, April 24.—1 a. m.—The emperor continues to improve. His fever is decreasing.

THE DREADFUL ACCIDENT.

...Engineer Lafayette Lady Killed at Colorado City Sunday Night.

About ten o'clock on Sunday morning a serious cutting affray occurred in the yards of the Colorado Midland railroad in Colorado City, which may result in the death of the injured party. The circumstances surrounding the affair, as far as could be learned, are as follows:

Shortly past nine o'clock the conductor of the freight train which was to leave that evening, ordered his head brakeman, Cady, to go to the round house and have the engine which was to pull the train. When Cady arrived at the round house he found the cab occupied by a fireman by the name of Sullivan, who afterwards declared was under the influences of liquor.

...soon became involved in a quarrel, the cause of which is not known. During the scuffle which ensued Sullivan was stabbed in the neck, he succeeded in pushing Cady out of the cab. He then discovered that he had been injured and called for assistance. Some men who were close to the cab ran to the scene of the trouble.

Dr. Briscoe, of Colorado City, and Dr. Bennett, of this city, who has charge of the St. Francis hospital, were hurriedly summoned. Dr. Briscoe, upon arrival, found that the injured man had been bleeding quite freely but that the flow of blood had been stanched. An examination of the wound revealed the fact that the knife had penetrated a quarter of an inch, long, and severed the neck just above the artery, severing several branches of the artery in its course. He was taken to the round house in Colorado City yesterday afternoon about three o'clock and he was brought to the hospital in this city where at the last accounts he was lying in a very critical condition, in imminent danger of a hemorrhage from the wound, which will almost instant death.

Prior to his removal to the hospital, Justice of the Peace Hen Smith, of Colorado City, had taken the deposition of the injured man. It seems that Cady and Sullivan had had some trouble with Cady while the latter had been drinking. He had left the engine to put it on the round house. When Cady came into the cab he found the drunken Sullivan, who told him to get out and not bother him or he would kick him out. It was at this time that the scuffle began, resulting in the stabbing of the latter. Cady had left the cab but a few minutes after Cady had left the cab he was cut. There was no other man in the cab at the time of the injury.

The injured man is a native of Ireland, and has been in the employ of the company for a long time. He is married and has a family residing in Denver.

A Scene in the Commons.

LONDON, April 21.—A scene occurred in the commons this evening on a question being raised by Shaw Lefevre regarding the increase of sentence in Ireland in appeal cases. Matthews, home secretary, being pressed, admitted that in his experience there was no precedent in England in similar cases.

Stuart asked Madden, solicitor general for Ireland, how many such cases there had been in Ireland in the last decade. Madden avoided the question as not coming before him officially.

Stuart having repeated the question three times with the same result, Sir William Harcourt asked who was responsible, and pressed for a definite answer. Madden carelessly replied that he did not know, which answer was received by hard cheers by the opposition and Parnellites. Sir William Harcourt asked who did know, and declared he wanted the question answered. Whereupon Madden promised to get the required information of return as asked for. The matter was then dropped.

The customs and revenue bill was taken up and after a long debate over an amendment by Gladstone which was defeated the bill passed its second reading.

Up to six o'clock last evening only one of the parties had been able to offer security.

Mr. H. B. Chamberlin, of Denver, delivered his lecture on "Paris" last evening at the First Methodist church to a large and deeply interested audience. The lecture was illustrated by the stereopticon views of the principal objects of interest in that wonderful metropolis being thrown on the canvas. Mr. Chamberlain has made several tours of Europe and knows of what he saw, and heard in a simple, conversational way that at once wins the hearts of his hearers. This lecture concludes the course given for the benefit of the free reading room.

The Santa Fe addition to the town of Fountain seems to be on the eve of a boom of rather large dimensions. We are informed by a reliable citizen of Fountain that Mrs. Ferrell of Colorado Springs will build at once, within 150 feet of the Santa Fe depot, a large hotel and two stores, also a residence, and Mr. Anthony L. Ziesler of Alamosa, Colo., will build a large drug store within one block of the depot, on this addition; also Mr. Mauger, of Garden City, Kas., will erect a general store building. Mr. R. J. Smith is erecting a building and has opened a lumber yard. Belknap & Cell will erect a shop and greenhouse in the same place. All these improvements are to be on Illinois street. W. C. Dunn, the local agent of the Fountain City Improvement company, reports sales to the amount of $1600 since the day of the first sale, April 10th.

Early yesterday morning the driver of one of the Colorado City hacks found a man lying in the road just outside the city limits. His face was covered with blood and he showed every evidence of having been roughly treated. He said that he had been knocked down by a man with a light mustache and robbed of his watch and chain and $70. He was brought to this city, where his wounds, which consisted of two very severe bruises on the head, were dressed. He passed the remainder of the night at the city hall, but disappeared yesterday morning without notifying the officers. City Marshal Dunn thinks that the man may have been robbed of his watch, though he cannot understand the cause of his sudden disappearance.

The brightest of all the soubrettes, pretty little Patti Rosa, sang, danced and laughed her way into the hearts of a big audience at the Opera house last night in the comedy of "Wanted." Perhaps for the representative of the type of actresses to which Patti Rosa belongs, yet it is hardly fair to compare the two as the latter has such a distinct individuality. While she lacks the vivacity and piquant grace of Lotta, yet she excels her in looks, in singing and in dancing. "Bob" is too well known to need criticism, and is much more quiet in tone than "Zip," the last play in which the little actress was seen here. She makes the most of the situation and her singing catches the audience. The supporting company was good without an exception, especially the Wybert Roinsyne of Wm. N. Griffeth. Last night's performance was the prettiest given by any company in the hearts of Colorado Springs theatre goers that we bespeak for a large audience whenever she may return. A pleasant feature of the performance was the excellent music which was furnished by the orchestra which now embraces pieces.
